Dear Mr. Warner:

The approximate boundary line of the site for our proposed headquarters building has been sketched in pen and ink on the photostatic copy of the section of your base map which you enclosed with your letter of September 10, 1957.

Our present tentative planning schedule estimates that a construction contract may be awarded during July or August 1958, and that the building may be completed late in 1960 or early in 1961. Our plans for site development are proceeding on schedule but we believe it is still somewhat premature to show a fixed location of the proposed building on the property.

Information regarding the adjacent highways may be obtained from the Department of the Interior and the Virginia Highway Commission.

Sincerely,

L. K. White
Deputy Director
